

Architectural Designer/Drafter: Full-time

We are seeking an architectural designer/drafter who can work independently and collaboratively with our design team to create construction documents and 3D renderings. Must have a degree in drafting or architecture and be proficient in Revit and AutoCAD. The ideal candidate will be detail oriented and have excellent technical, written, and oral communication skills.

Design Resources Group is partnered with Property Resources Group and Christianson Companies to provide architectural design, interior, and civil designs throughout the country.

Company benefits for this full time position include: health, dental, vision, life and 401(k) plan.
